Proposed Agreement -
 VDM&T and CIA
 Fairfax County

Ms. Nancy K. Falck, Member
 Fairfax County Board of Supervisors
 Dranesville District
 6803 Poplar Place
 Suite 100
 McLean, Virginia 22101

Dear Ms. Falck:

Thank you for your letter of September 6 expressing your concerns regarding the CIA improvement and entrance onto Route 123. We, too, share the same concerns that you have raised in your letter. The following steps will be taken to be sure the need for six lanes is presented to the citizens:

1. We have advised our consultant engineers, Dewberry and Davis, to immediately prepare a supplement to the study that has been completed for this entrance. This supplement will show the provisions clearly for the future six lanes.
2. After the environmental assessment has been completed and a meeting held by the CIA, an Ad Hoc Committee, and all of the citizens in the area, a decision will be made regarding the type of development. Whatever that plan is, it will either provide for the future addition of lanes to provide six through lanes or it will contain the need for six lanes as a part of the construction. To further document the need for six lanes, the contract plans will be drawn to reflect the future addition of the lanes. These plans will be made a part of the permit necessary for the CIA to work on the Commonwealth's right of way.

I feel these steps will ensure us, the citizens, and Fairfax County of the intent for the traffic service in this area.

Ms. Nancy K. Falck

September 10, 1984

We are proceeding with the development of the environmental document as quickly as possible and look forward to an early resolution to this matter.

Sincerely,

Harold C. King, Commissioner
